

Finished Projects

Construction is all about demolition and rebuilding, however you step back at the end of the project and admire your accomplishments. We will photograph images of your finished projects inside and out.

Tradeshow Graphics

4Biz will create graphics for your trade shows and events. We design the artwork, convert it to a print format, then work with display vendors to provide you the best product. We'll handle everything. Think big, be creative and make a bold statement.

Vehicle Graphics & Wraps

Your vehicles are mobile advertisements, so why not take them to the next level. From initial design concept to the final, delivered vehicle wrap, we ensure a vibrant graphic that will stop traffic.

MARKETING SOLUTIONS FOR THE CONSTRUCTION INDUSTRY

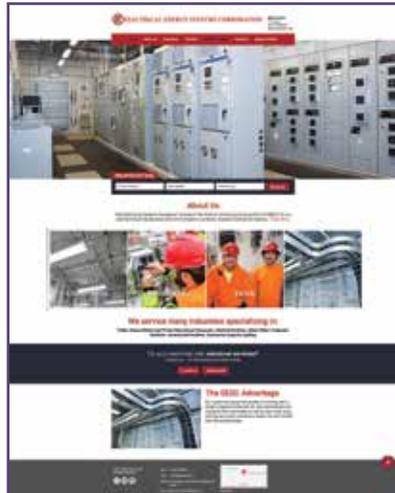

WEB DEVELOPMENT

Your web site is the "doorway" to your company that supports your brand and identity in the business. It's a source of information, for your audience, that leaves an impression on them. It's also a bold statement to your competitors.

From a simple start-up to corporate websites, with advanced customization, we'll help you reach your goal. 4Biz can provide you with a modern, responsive, wordpress web site that you are in control of. We'll also assist you in getting noticed through effective search engine optimization.

The sky's the limit with today's web technology. Web sites are more interactive with the addition of many available creative plug-ins. Most of all, they are much easier to manage by the client. Ready to create that new web site?

Top: Manafort Brothers, Incorporated.

Right: Electrical Energy, Contractors with a number of customizations to fit their productivity needs.

VIDEO & PHOTOGRAPHY

Custom commercial photography conveys a clear, concise story about your company. Construction photography documents projects and promotes your services when attracting new clients in a competitive market. Our team knows construction having over 15 years of experience working with established general contractor companies.

Manafort Brothers, Route 8 Bridge Removal & Replacement, Bridgeport, CT

Manafort Brothers, demolition of 60 Washington Street in Hartford, CT

Drone and Time Lapse

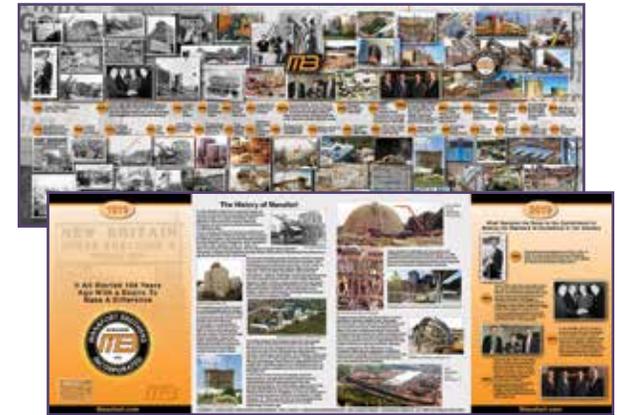

Today's video technologies are designed to create exciting and vibrant video compilations. 4Biz will visit the location, shoot stills, video, time lapse and fly the drone. Afterwards, we will combine all the elements, including music and moving graphics. The results: a high-impact, multi-media video that creates a new dimension for your company.

COLLATERAL MATERIALS

Graphic design is the best form of hands-on visual communication. It's more than text and photos. It's the feel of the paper, the smell of the ink and the gloss finishes. As designers, we select and combine the elements: text, graphics and colors to create stimulating imagery in a way that compels people to stop, look and learn more about what makes your company great.

(Above) The "Folding" Annual Report. Instead of multiple pages that are folded, stitched and collated, this is a one sheet, 2-sided brochure. It has great cost-savings for the client.

Marketing Sheets for Manafort and Laydon Industries. Design, photography and print services.

Promotional Print Graphics

Nobody prints anymore? Not true. Printed collateral materials are a great enhancement to your global marketing plan. Sell sheets, promo cards and brochures are appealing, still popular and very effective. In addition, we know great printers who can supply you a quality product at an affordable cost.
